### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to Applicants, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Salim Hasan, Applicants' Attorney, on July 14, 2008.

The application has been amended as follows:

In claim 1 line 2, please delete ", wherein the feed gas is".

In claim 35 line 2, please delete ", wherein the feed gas is".

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The Applicants' arguments submitted with their Amendment filed on May 30, 2008 are persuasive. The Applicants have persuasively argued that their feed gas consists essentially of an acid gas. The Applicants' "consisting essentially of" language unobviously and materially excludes the water taught to be in the gas of U. S. Pat. 5,211,923 to Harkness et al. (please see col. 5 Ins. 19-20 in U. S. Pat. 5,211,923). The Applicants have also persuasively argued that in U. S. Pat. 5,211,923 the gas stream produced by the amine purification of the "sour gas" is an "acid gas", and this acid gas is directly conducted to the plasma reactor without any intervening steps of apparatus to refine the hydrogen sulfide content of the acid gas prior to dissociation. In contrast, the

Art Unit: 1793

Applicants' independent claims require a first step (or apparatus) for first separating the feed gas to obtain a first purified hydrogen sulfide fraction from the feed gas and it is this first purified hydrogen sulfide fraction that is dissociated.

Any comments considered necessary by Applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to TIMOTHY C. VANOY whose telephone number is (571)272-8158. The examiner can normally be reached on Mon-Fri 8-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stanley Silverman, can be reached on 571-272-1358. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
